Subject: Your Wing IDE License Codes

Thanks for purchasing Wing IDE from Wingware!

Your customer number is 10120056
Your order number is 20111012-0034

Licenses purchased or upgraded:

Wing IDE Pro - Commercial Use v. 4.x (1 user):
  With Support+Upgrades through Oct 2012

  CN311-DPPQB-3W8QD-B7TN1

Each license code is for a single developer. To activate a license, run Wing IDE and enter
the license code when prompted at startup.

If you have not already done so, you may download the IDE from http://wingware.com/downloads
. If you downloaded a trial version previously, you can use that version with your permanent
license. However, we recommend using the latest version if newer versions are now available.

We recommend signing up on our product announcements mailing list at
http://wingware.com/lists/announce so you will be notified of new software releases. You may
also wish to join the Wing IDE users mailing list at http://wingware.com/lists/wingide

If you wish to obtain the Wing IDE source code, you will need to sign and send us the non-
disclosure agreement, which is available at http://wingware.com/pub/wingide/support/source-
non-discl.pdf

You may obtain support by emailing support@wingware.com.
See also our support site at http://wingware.com/support

Thanks for your purchase!

Sincerely,

The Wingware Team
